ICSE COACHING CENTRE (ICC)

Dear Students and Parents,

ICC brings to you a smooth transition from the offline coaching to a premium online coaching experience. The pandemic has resulted in an unprecedented chaos in the education sector and the right coaching has become the need of the hour.

ICC brings to you a wholesome teaching experience. With a par excellence faculty, your child's education is our top priority.

This institution offers your child a holistic education. Subject specific coaching has always been our aim. A decade of experience has resulted in foolproof result oriented process.

This process includes primary teaching, secondary tests, tertiary doubt solving sessions and pro test series. The methodologies employed in the class cater to students of all learning levels. A byproduct of such practices is the resultant increase in knowledge, confidence and interest in the academic subjects.

We provide comprehensive study material, frequent revisions, doubt solving sessions, assignments and board based papers. These also include chapter wise questions and answers, short test, terminal tests, board practice papers and much more. All this is coupled with time table co-ordination of all subjects to enable maximum study time.

We believe a child is taught by the efforts of both teachers and parents. Keeping this in mind, we engage in a feedback oriented conversation with the parent at regular intervals.

Be rest assured your child's future is in able hands and we will do our best to help your child excel in these crucial academic years. Online classes are as effective as offline classes owing to a detailed research and development methodology employed by all teachers. This has been proven by our excellent results over the years and we have a mind to deliver the same year after year.

We promise to make your children better at academics each and every day they spend their time with us!

Choose ICC to believe.
